## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1 and 32-45 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 and 38 recite, "...without forming an oxide on the first isolation areas, forming a second patterning layer...". However, there is no description of forming a second patterning layer "without forming an oxide" as recited.

### ***Response to Arguments***

3. Applicant's arguments filed 09/08/2003 have been fully considered but they are not persuasive.

Applicant argues, "...Applicant maintain traversal of the restriction requirement. The failure of the previous response to distinctly and specifically point out the errors in the restriction requirement was inadvertent, and the response was a bona fide attempt to advance prosecution of the application despite such oversight. Applicant was not previously provided with notice and an opportunity to cure such defect in the previous reply... Accordingly, the election cannot be properly considered an election without

traverse...". In response to this argument, a restriction along with a non-final rejection mailed on 12/18/2002, in which in a telephonic conversation with Mr. Venglarik, an election with traverse was made. Although applicants assert that the response was a bona fide attempt to advance prosecution, a proper response to the traversal of the claims was expected to be included in the response to said non-final rejection, filed on 03/24/2003. Since no arguments regarding the errors of the restriction, the election was made without traverse. Therefore, the election is deemed to be proper.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
